# 40 Students Qualify for 11<sup>th</sup> Annual DEEP / HRMS Spelling Bee

8<sup>th</sup> grader Jennaya Lopez was the winner of this year’s Holten-Richmond Middle School Spelling Bee on January 22<sup>nd</sup>. She survived 19 rounds and spelled *reductive* and *conspirator* for the win. Fellow 8<sup>th</sup> grader Kelly Huynh was the runner up.

Spellers were attired in blue t-shirts provided by George Koutsos of CrossCountry Mortgage, and were treated to pizza courtesy of the Danvers House of Pizza.

HRMS teacher Jessica Bouchard was the MC for the evening, indicating to spellers whether or not the word to be spelled had a homonym and, if so, giving the definition of the word to be spelled. She also responded to speller requests for a definition, sentence, part of speech or language of origin. Judging duties were ably handled by Assistant Superintendent Mary Wermers, HRMS Curriculum Director Elyn Feerick and HRMS Librarian Sarah Woo.

Congratulations to all of the students that qualified, and thanks to all of the family members and friends who came to cheer on their favorite speller!

# Winter Round of Teacher Grants

For the first time in its’ history, DEEP is offering teachers two opportunities to apply for a DEEP Teacher Grant in SY20. The winter cycle of applications was opened to teachers on November 25. The deadline for applications – for support of spring initiatives and curriculum enhancements – was December 16. The Grant Committee is currently reviewing applications.

Teacher Grants are awarded to educators so that they may offer educational enrichment, innovative programming and creative opportunities to students in the Danvers Public Schools. Teachers may apply individually or as part of a group.

The grant application will be opened again in the spring for fall 2020 awards. Teachers may apply once per cycle.

To learn more about the projects DEEP funded last year, visit our website at: <http://www.supportdeep.org/2019/06/congratulations-to-this-years-deep-teacher-grant-recipients-4/>.

# Danvers High School DECA Wins at District 3 Competition at Merrimack

On Thursday, December 19, 2019 more than 200 Danvers High School DECA students participated in the DECA District 3 competition at Merrimack College. Thirteen local schools make up District 3, and there's a total of eight DECA districts in Massachusetts.

Students participated in a number of different events, with more than 150 DHS students placing in the top 5 in their categories. These students will continue on to the State Career Development Conference taking place at the Hynes Convention Center in Boston from February 27 to 29, 2020.

DECA students who place at the State Conference will qualify to compete in the DECA International Career Development Conference in Nashville, Tennessee from April 29 to May 2, 2020.

The objective of Massachusetts DECA is to support the development of marketing and management skills in career areas such as hospitality, finance, sales and service, business administration and entrepreneurship. DEEP is proud to sponsor Danvers DECA through a generous donation by Phillip Morse. GOOD LUCK AT STATES, DANVERS DECA!

*It's Almost  
Valentine's Day!*

Sending flowers to someone you love on February 14? Make your gift extra special by ordering your flowers or arrangement from Currans Flowers in Danvers.

Place your order (for delivery or in-store pickup) online at [www.curransflowers.com](http://www.curransflowers.com), and they'll make a donation to DEEP through their CURRANS CARES program.

Simply check the CURRANS CARES box at the top of the Your Payment Information page, and select D.E.E.P. Danvers Educational Enrichment Partnership from the drop-down menu that appears below your billing information.

Thank you for your support and Happy Valentine's Day!

## We Invite You to Become A Member

New members are always welcome to join us in our commitment to making the Danvers Public Schools the best that they can be. To learn more about becoming an individual, family, community partner, or corporate member of DEEP, please visit our website at: [www.supportdeep.org/contribute](http://www.supportdeep.org/contribute).

All members are welcome at our monthly meetings. Our February 12, March 11 and April 8 meetings will be held at First Ipswich Bank, 107 High Street, at 7:45am.

We hope to see you there!

# Save These Dates for Upcoming Events...

## DHS Keys to Success

The program began in January and culminates with a Key-Off on Friday, May 8, when one lucky DHS student will win a car.

Thanks to Jill and Kevin Michaud of Michaud Mitsubishi for their continued sponsorship of this exciting event.

## Breakfast of Champions

Our final meeting of the year will be held in the Atrium at Danvers High School at 8:30am on Wednesday, June 10.

Join us as we celebrate Danvers Public Schools retirees and the support of our sponsors.

## Thanks to all of our sponsors for their support of our mission:

## HOME BUYING 101

# MORTGAGE MYTHS

When looking to purchase a new home, there is so much information out there about the process it's hard to know what to believe. It's important to have the right information since it can greatly impact both your buying power and financing for your new home.

We have debunked the Top 3 Mortgage Misconceptions you may encounter as you consider your options for purchasing and financing a home.

## CREDIT SCORES

Poor credit scores stay with you forever.

Actually, credit scores change each month. A late payment in the previous month can seriously affect your score, but if you make all subsequent payments on time, each month your score will improve. There are many factors that affect your credit score, something your loan officer can discuss further with you.

## MORTGAGE COSTS

Lenders get you with "upfront" fees.

Most reputable lenders will provide you with a free pre-qualification while you're shopping for your home. Typical acceptable upfront fees: Property Appraisal and Credit Report. The only money we collect up front is to cover necessary third party costs, and if you paid more than the actual cost of the services, the difference is credited back to you on the settlement sheet.

## HOUSING AFFORDABILITY

A 20% down payment is needed on a home.

Several agencies allow 0% - 3.5% down payments, such as the Federal Housing Administration (FHA), Department of Veterans Affairs (VA) and the United States Department of Agriculture (USDA-RD). Many State Housing Agencies allow borrowers to receive cash assistance for down payments, too.

RMS has access to all of these programs.

# S.T.E.A.M. SUMMER COURSE DESCRIPTIONS

**3D SCULPTURE** Through a series of innovative and engaging exercises, you will work with materials including fiber, paper, wire, clay, found objects and more to create three-dimensional works.

**ACTING FOR THE STAGE** Learn the art of Narrative Pantomime, how to take stage direction, how to develop character, projection, stage presence and techniques for memorizing lines. The session will culminate in a performance for friends and family.

**ADVENTURES IN DRAWING & PAINTING** Explore the principles of drawing and painting from observation and imagination. Learn value, gesture, contour lines, color and composition using a range of materials. Each session offers new challenges to allow for returning students.

**ANIMATION** Learn about animation and all of its possibilities. Develop drawing techniques to tell stories with still and moving images, using a variety of approaches.

**ART ALIVE!** Explore art from around the world that focuses on our favorite living things. We will explore these living wonders through the eyes of artists from Beverly to Bulgaria and beyond!

**ART EXPLORERS** Create eclectic 2D and 3D art collections using clay, wire, fabric, paint and other materials.

**ART-FULL PLAY** Relax and clear your mind through structured creative play. We will begin with doodling to open up channels of creativity. You will be guided through the simple process with pen and paper, then, expand your experience by introducing other media.

**ART, NATURE, AND THE ENVIRONMENT** Take a closer look at the marvels we experience every day, from tiny insects to mountain peaks. Use the color, textures, and patterns found in nature to influence our drawings. Create mixed media paintings and collages that explore the unique connection between art and nature.

**AUTHORS CLUB** Become an author! Learn about story elements, narrative story writing, illustration and create your very own hardback book.

**CARTOONING AND COMICS WORKSHOP** Create original cartoons using visual storytelling through script writing, character development and background design. Storyboarding leads you from initial sketches to final printing of completed comic narratives. Use illustrative techniques to sketch, ink, color, write and print finished comics.

**CLAY STUDIO** Create 3D works using one of the oldest materials in art history – clay. Explore different techniques such as slab rolling, pinch pots, molding, and coil building by only using our hands. Customize each project to your liking and bring home some works of art!

**COMIC BOOK ART** Develop and expand a personal style of comic book art using dreams, superheroes and the works of famous artists. Story, character development and drawing techniques are addressed.

**CRAZY CHEMISTS** Explore chemistry through a hands-on approach. Learn about freezing point depression as we make our own ice cream. Explore how to make awesome bouncy balls and fun slime. Make cool art using homemade bubble solution!

**CREATING WITH YARN** Experiment with repurposing yarn scraps into art, and study fibers as you weave small wall hangings, print with yarn, make pom-pom animals and more!

**DIGITAL PHOTOGRAPHY** Learn the basics of using your digital camera. You need to provide your own digital camera.

**DRAWING AND CARTOONING** Learn the tips and tricks of creating your own characters, scenes, and action-filled adventures with drawing basics including line, shape and composition. Explore fantasy worlds, monsters, dragons, unicorns, fairies and elves.

**DRAWING** Develop your ability to look carefully at your subjects, to recognize relationships, and to develop your drawings.

**FASHION DESIGN** Develop skills in fashion illustration, pattern making, fabric selection, draping and garment construction. The final project is the creation of a piece to be viewed and critiqued by peers and instructors at the conclusion of the program.

**FASHION WITH (RE)PURPOSE** Learn how to alter and design pre-existing clothing into something new and fresh! Experiment with found materials, objects and reclaimed fabrics to reimagine garments. Learn basic hand stitching and machine sewing techniques, fastenings, fabric dyeing, embellishment and screen printing.

**FIBERS** Explore how artists use cloth, paper and other materials to create fiber works. Techniques may include sewing, printing on fabric, beading, papermaking, batik, knitting, weaving and more, to make wearable art and 3D objects from a wide range of soft media.

**FILMMAKING** Be part of a real film crew in this live-action moviemaking class. From concept to shooting to performing, you will learn the fundamentals of the great collaborative process of filmmaking. Creativity, teamwork and visual art come together to create a movie premier on the final day of class.

**FUN WITH BIOLOGY: BUGS AND PLANTS, OH MY!** From walking sticks to snakes, from growing things to popcorn - students will investigate subjects, conduct experiments, and then create interesting biology-themed art projects!

**GRAPHIC DESIGN** The art or profession of visual communication that combines images, words, and ideas to convey information and express ideas to an audience. This class introduces the skill and concepts fundamental to graphic design, including process, conceptual thinking, making and production. This course is not computer based.

**IPHONEOGRAPHY (SMARTPHONEOGRAPHY)** iPhoneography is the latest photography trend to hit full stride in the art world. It challenges photographers to take high quality photos with their iPhone, and to turn everyday moments into works of art.

**JEWELRY MAKING** Learn wire wrapping techniques to create jewelry and other crafts from materials found during your journey to the shores of Beverly. Design pendants, wind chimes and other beautiful creations using beach glass, beads and other natural items.

**JUNK BOX CREATIONS** Do you want to be an inventor? Use recyclable materials to create useful inventions.

**MINI ENGINEERS** Imagine and explore simple engineering concepts while working in teams to design, build, and create. Using materials such as clay, pipe cleaners, Legos, and foil, Design boats, assembly lines, mazes, towers, parachutes, and domes.

**MIXED MEDIA** Work with collages, rocks, watercolors, acrylics, natural materials, mosaics and more. This fun program teaches you to explore new ways of being creative with all kinds of materials to create open art .

**MONSTER MASH DRAWING** Develop illustration skills using monsters as inspiration. Monsters, like our imaginations, follow no rules! We'll build visual art skills and drawing techniques using a variety of materials such as graphite, ink pens and colored pencils. .

**OUT OF THIS WORLD** 3...2...1...Blast Off! Enjoy a variety of creative projects that explore everything outer-space! Create giant paper mâché planets, glow-in-the-dark constellations and life-size extraterrestrials.

**PAINTING** Introduces a variety of painting techniques. You will produce canvases on a variety of subjects and create your own solutions. You will develop critical skills for evaluating your own work and that of others.

**PAPER ARTS + BOOK MAKING** Explore a variety of ways to transform an ordinary piece of paper into something extraordinary. You'll learn techniques like folding, cutting, layering and sewing to make your very own paper toys, pop-up cards, mini books and more.

**PRINTMAKING** Design and create your own product line: notebooks, custom stationary, gift wrap, patterned fabric and more using screen printing, stamping and stencil techniques. Learn basic design principles and be inspired by artists working in both Fine Arts and Graphic Design fields.

**SCULPTING WITH NATURE** Begin in the classroom with an inspirational introduction to recognizable works of art, move towards construction techniques, and finally travel outside where you will be interacting with nature in its rawest form.

**SCULPTURE WORKSHOP** Learn a variety of techniques for building functional and sculptural works of art, including slab, coil and pinch pot methods. Projects consider age and skill level and allow returning students to continue building skills, knowledge and technique.

**SEWING 101** Learn the skill of hand and machine sewing while creating unique works of art. Learn how to thread a needle as you experience how fun sewing projects can be.

**SKETCHBOOK & ILLUSTRATION** Learn to express your ideas; find, explore and develop your own style in a sketchbook filled with personal narratives. Use shapes, expressive marks, drawing distortions, and other methods to transmute emotions into uplifting art.

**SUPER SCIENTISTS** Interested in Groovy Science, Cake Chemistry, or Flight Physics? Super Scientists' hands-on activities allow you to investigate topics such as polymers, gravity, chemical reactions, and more.

**T-SHIRT DESIGN** Use fabric paint, tie-dye and batik to design one of a kind creation. All students must provide five prewashed, 100% cotton t-shirts to decorate.

**THE THIRD DIMENSION** Discover how math and science are used to help create 3D sculptures that fly, move or float using wire, paper, polymer clay and more. Using multiple materials, you will also give old items a new life, taking the ordinary and creating the extraordinary.

**WATT'S UP?** Focuses on the importance of light in art, whether in the process of creation, or in the art piece itself. Art will range from printmaking to sculpture, and you will learn more about the science behind light!

**WHERE NO ONE HAS GONE BEFORE...** A class inspired by science fiction; we will look at why this genre has been so loved for so many years. You will go from creating your own alien race to creating an alien invasion.

**WIRE AND METAL SCULPTURE** Experiment with different approaches to wire sculpture to create both three dimensional forms as well as creative relief sculptures. Form as well as texture and color will be important design tools.

**WONDROUS WATERCOLOR** Paint outside the lines! Create realistic and experimental watercolors with a variety of techniques like splash, splatter, wash, wet-on-wet and dry brush. We'll even experiment with salt.

**YOGA, MINDFULNESS AND ART** Enter a safe space where we'll use yoga as a tool to develop an awareness of ourselves and others. Movement will be paired with journaling, poetry, and drawing as methods of self-expression.

# SAVE BIG ON YOUR MORTGAGE...

Interest rates are near all-time lows!

"We recently used Brad to refinance and cannot say enough about how seamless a process it was. Everything was done in an efficient, professional and organized manner. We highly recommend Brad and would certainly use him again." – Jeff L.
